

YOUR TRUSTED, NATIONAL ACCOUNTS PARTNER

WHO WE ARE

LightSource is the premier provider of

- energy-efficient lighting upgrades,
- virtual safety projectors, and
- electric vehicle (EV) charging installations.

We are your one-stop shop for the best, most objective solutions. We have 25 years of experience with more than 3,500 projects in a wide range of industries: healthcare, manufacturing, warehousing, education and commercial buildings.

WHAT WE DO

Our turn-key services help you to "go green" with changes that make a difference to your company's bottom line now. This happens through utility cost reductions, elevated productivity and enhanced facility values. And, when you upgrade or install with us, you are also improving the quality of life for your employees.

NATIONAL ACCOUNTS

As a national account, you need a standardized approach, but also value customized attention. Our experience and flexibility allow us to offer both. Our national accounts offering consists of the following:

- Facility audits, including prioritizing utility rebates across all facilities;
- Consistency of proposals: bill of materials, pricing, financial analysis;
- Single point of contact for project management of critical processes, deliverables, and schedules;
- Nationwide network of installers for consistent and high-quality installation; and
- Dynamic reporting of environmental impact across multiple sites.

In short, we can help you achieve your goals:

Sustainability

**Drive Down
Operational Costs**

Workplace Safety

**Improved
Productivity**

THREE OFFERINGS, ONE TURN-KEY PROCESS

Whether you're ready to upgrade your current lighting, replace worn paint or tape with virtual safety projectors, or install your first EV charging stations, we provide our customers complete service, from audit to installation.
