

YOUR LED LIGHTING PARTNER

We provide our customers complete service, from audit to installation.

WHO WE ARE

LightSource is the premier provider of

- energy-efficient lighting upgrades,
- virtual safety projectors, and
- electric vehicle (EV) charging installations.

We are your one-stop shop for the best, most objective solutions. We have 25 years of experience with more than 3,500 projects in a wide range of industries: healthcare, manufacturing, warehousing, education and commercial buildings.

WHAT WE DO

Our turn-key services help you to "go green" with changes that make a difference to your company's bottom line now. This happens through utility cost reductions, elevated productivity and enhanced facility values. And, when you upgrade or install with us, you are also improving the quality of life for your employees.

OUR TURN-KEY PROCESS

We provide you with complete service, from audit to installation:

- Pre-qualify projects and conduct audits
- Select the best equipment and manufacturer for your needs
- Prepare proposals, including ROI and payback analysis
- Investigate and secure all local, state and federal incentives available (including EAct 179D-accelerated tax deduction for building energy efficiency)
- Provide quality installation by certified installers
- Remove and recycle old equipment

In short, we can help you achieve your goals:

Sustainability

**Drive Down
Operational Costs**

Workplace Safety

**Improved
Productivity**

THREE OFFERINGS, ONE TURN-KEY PROCESS

Whether you're ready to upgrade your current lighting, replace worn paint or tape with virtual safety projectors, or install your first EV charging stations, we provide our customers complete service, from audit to installation.
